

808nm Vehicle Mountable Infra-Red Light

Specifications

Model	LZ30W808
Input Power	12V/30W
Output Power	15W
Wavelength	808nm
Weight	2 lb 6 oz
Size	Base 6.4"X3"
Beam Angle	Vertical 2 degree, Horizontal 60 degree
Operating Condition**	Housing Temperature should not go over 60 °C
Others	Water resistance and shock resistance

*If the housing temperature heats to close to 60 degree, please turn off the unit to let it cool down. You may mount the unit on additional heat sink so that it can be on longer.

Accessories:

- 12V Power Supply

Laser Hazard Information:

DANGER: The Laser Light Module contains embedded laser devices that will emit invisible radiation of 808nm with a total output power of up to 15W. The diverging lens on the top of the lasers devices spread laser light into wider angle of vertical 2 degree and horizontal 60 degree. **AVOID EYE OR SKIN EXPOSURE.**
